Education

- Bachelors in Computer Engineering
Tribhuvan University
2019 - 2024

Language

- English
- Nepali
- Hindi

Interpersonal Skills

Organized	● ● ●
Communication	● ● ●
Teamwork	● ● ●
Meeting deadlines	● ● ●
Critical thinking	● ● ●

Skills

- **Programming Languages:** Python, DSA, C++
- **Databases:** SQL
- **Cloud Platforms:** AWS
- **ML:** Linear Regression, CNN Fundamentals
- **Operating Systems:** Linux, Windows
- **Mathematics:** Statistics, Linear algebra, Calculus, Probability theory

Coursework

- Udemy - COMPTIA Linux+
- Udemy - COMPTIA Network+
- Udemy- Microsoft Power BI
- Udemy - Python for Data Science and ML

Certification

- AWS Certified Cloud Practioner

Projects

Application Of Machine Learning Algorithms for:

- Monument Recognition System
- Deepfake Video Detection System

Experience

- **Code Rush Pvt Ltd.** Dec 2023 - Present
Cloud Security Engineering Apprentice

- Familiarized with basic commands, shell scripting for CRON jobs and security practices in Linux operating systems.
- Gained insights on fundamental concepts of networking, IP addressing, subnetting, routing, and security practices.
- Gained hands-on experience in design and implementation of AWS resources such as EC2 instances, S3, VPC, databases and shared responsibility model.
